### **Information**

My motivation as a broker lies in my belief that we should all be seen as the individuals we are and must, therefore, be able to access choice and control in our lives.

My background is mainly in the field of mental health, in which I have worked as a music therapist for 13 years. Over this time, I have also worked with people with learning disabilities, physical health issues and other social needs. I have helped individuals and families of all ages.

I would describe myself as thoughtful, honest and genuine.

### **Training**

I have a Masters Degree in Music Therapy.

I have completed training with the National Brokerage Network.

**CRB Enhanced Disclosure no.001263699228**

**Professional indemnity and public liability insurance - Ansvar**
